

Prince Charles Hospital

Queensland, Australia

Problem

Prince Charles Hospital was required to upgrade existing facilities and had the need to install Fire Curtain to satisfy the minimum of -/120/120 on a Class 9 Building window configuration. Fire rating required due to Building Class 6 roof below Building Class 9.

Solution

Fibershield Vertical Fire Curtain.

Design Considerations

The fire resistance level of -/60/- was met through the use of Fibershield Fire Curtain.

Client

Department of Health, Queensland

Builder

Baulderstone Hornibrook

Fire Safety Engineer

Nofire Pty Ltd

*Note: Each project is unique and usually requires the involvement of a Fire Safety Engineer.
Please contact us to discuss the suitability of this solution for your project.*
