

DUNEDIN INTERNATIONAL AIRPORT NEW ZEALAND

smoke containment screens • smoke curtains • fire curtains • horizontal fire curtains • smoke & heat release vents • natural ventilation • fire resistant glazing • horizontal glazing • smoke doors • fire doors • intumescent paint & other specialty systems

projectoverview

Problem

The airport contained open stairs that were adjacent to a lift shaft.

Solution

Smoke Control installed Supercoil smoke curtains. The dimensions were 11m wide x 3m high across both openings.

Design Considerations

The system provided was required to be Invisible when in non-fire mode.

Client

NZ international Airport Authority

Fire Safety Engineer

Cosgrove Major

*Note: Each project is unique and usually requires the involvement of a Fire Safety Engineer.
